

Michele Moresco, Ph.D.  
Attorney  
Electrical & Computer Technologies Practice  
Wolf Greenfield

Michele Moresco, Ph.D., is an attorney in Wolf Greenfield's Electrical & Computer Technologies Practice, where he focuses on patent prosecution and strategic IP counseling. He works closely with startups and growth-stage companies to develop IP strategies that support fundraising, product development, and long-term competitive positioning. Michele also has experience in patent litigation and IP diligence. His practice focuses on electronics and semiconductors, optics and photonics, medical devices and artificial intelligence. Prior to joining the firm, he was a postdoctoral associate at MIT and received his Ph.D. in electrical engineering from Boston University.
