

FOR IMMEDIATE RELEASE

ERZIA Appoints ACETEC as Exclusive Representative for California

Santander, Spain – Monday, June 16, 2025: ERZIA, a leading global provider of high-performance RF and microwave amplifiers and subsystems, is proud to announce a new strategic partnership with ACETEC, naming them the exclusive ERZIA representative for Southern California.

With over 30 years of experience, ACETEC has built a strong reputation as a trusted representative and technical sales leader in the RF, microwave, and test equipment industries. Known for their deep industry expertise, responsive service, and long-standing customer relationships, ACETEC is ideally positioned to expand ERZIA's footprint in one of the most dynamic technology regions in the world.

"We are excited to partner with ACETEC to strengthen our presence in the Western U.S.," said David Diez, Managing Director at ERZIA. "Their technical knowledge, customer focus, and track record of success align perfectly with ERZIA's commitment to excellence and innovation in mission-critical RF solutions."

ERZIA designs and manufactures solid-state power amplifiers, low-noise amplifiers, frequency converters, and complex integrated microwave assemblies trusted by leaders in Defense, Space, SATCOM, and Electronic Warfare. With this partnership, customers in the California will benefit from local access to ERZIA's high-reliability, high-performance RF systems, supported by ACETEC's expert guidance and service.

The ERZIA and ACETEC teams will be available to meet customers and industry partners at the upcoming International Microwave Symposium (IMS) in San Francisco, June 17-19, where ERZIA will exhibit at booth #1631. Visitors are invited to explore ERZIA's latest innovations and discuss how this new partnership will enhance regional support and collaboration.

"We are proud to represent ERZIA and bring their world-class RF solutions to our customers," said Frank Tso, Vice President at ACETEC. "Their technology, engineering excellence, and commitment to quality are exactly what our clients need for today's most demanding applications."

This partnership marks a significant step in ERZIA's ongoing mission to serve the global RF and microwave community with localized support and global innovation.
