

Phase Adjuster -Adapter type- **NEW**

► Overview

Coaxial adapter with 11 psec. phase adjusting feature.

► Product

02X0657-00 : 1.0mmW Phase Adjuster (P-J)

► Feature

- The best way to adjust skew in final tuning
- Small adapter type, perfect to use in narrow space

► Application

- Final skew adjustment in differential signal
- Skew tuning in any application

► Specification

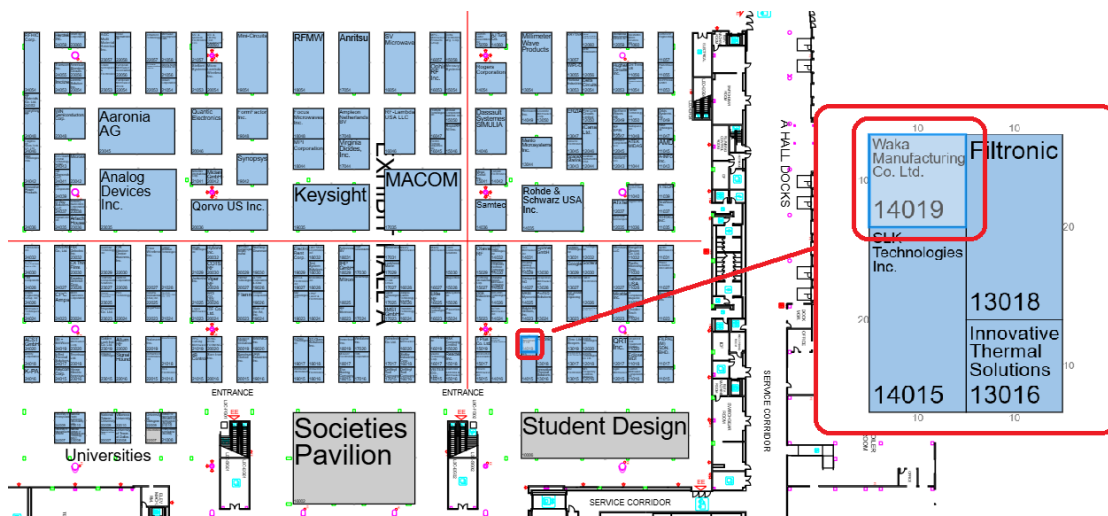

Item#	02X0657-00
Connector	1.0mmW/J-P
Frequency Range	DC ~ 110GHz
Impedance	50Ω
V.S.W.R.	DC ~ 110GHz 1.45
Insertion Loss (in Max.)	1.2dB (DC ~ 110GHz)
Delay Time (mechanical length)	11ps (3.4mm)
Operating Temperature	0°C ~ 60°C
