

FOR IMMEDIATE RELEASE

Mercury Systems selected to provide secure packaging for DoD SHIP program

ANDOVER, Mass. – April 19, 2022 – Mercury Systems, Inc. (NASDAQ: MRCY, www.mrcy.com), a leader in trusted, secure mission-critical technologies for aerospace and defense, announced it has been selected to provide trusted and secure advanced packaging for the Office of the Undersecretary of Defense for Research and Engineering’s (OUSD R&E), State-of-the-Art Heterogeneous Integrated Packaging (SHIP) program. The Other Transaction Agreement (OTA) was awarded by NSWC Crane with National Security Technology Accelerator (NSTXL) as the Consortium Manager. The SHIP program is part of the Department of Defense initiative to advance and strengthen the American microelectronics industrial base to ensure the U.S. has access to advanced capabilities in domestic facilities and quantifiably assured microelectronics technology fundamental to key technologies, including AI, 5G communication and hypersonics.

Why It Matters

Historically, the DoD has been limited in its ability to work with industry-leading technology developers, stymied by previous security models. The SHIP program represents a shift in approach by directly engaging with companies like Mercury to develop trusted, secure, and more cost-effective ways to design, manufacture, assemble and test in-package integration of mission-critical system components.

“For decades, Mercury has been in a unique position, through our partnerships with commercial technology industry leaders and DoD customers, to deliver uncompromised solutions to the aerospace and defense industry,” said Tom Smelker, vice president and general manager, Mercury Microsystems. “Programs like SHIP are expanding our ability to partner with our government, allowing them access to our investments in onshore trusted microelectronics and our expertise in secure, heterogeneous packaging to realize the DOD’s forward-looking commitment to accelerating innovation. We’re honored by and excited for this opportunity.”

In 2019, Mercury announced a strategic investment in 2.5D and 3D custom microelectronics as part of its effort to bring cutting-edge commercial silicon technology to customers, including the DoD. The Company will be holding an official opening of its advanced packaging facility in Phoenix on April 20, 2022.

Mercury envisions, creates, and delivers innovative technology solutions purpose-built to meet its customers' most pressing high-tech needs. For more information, visit mrcy.com or contact Mercury at (866) 627-6951 or info@mrcy.com.

Mercury Systems – Innovation That Matters®

Mercury Systems is a global commercial technology company serving the aerospace and defense industry. Headquartered in Andover, Mass., the company delivers trusted, secure open architecture processing solutions powering a broad range of mission-critical applications in the most challenging and demanding environments. Inspired by its purpose of delivering Innovation that Matters, By and For People Who Matter, Mercury helps make the world a safer, more secure place for all. Forward-Looking Safe Harbor Statement

This press release contains certain forward-looking statements, as that term is defined in the Private Securities Litigation Reform Act of 1995, including those relating to the equity awards discussed herein and to fiscal 2022 business performance and beyond and the Company's plans for growth and improvement in profitability and cash flow. You can identify these statements by the use of the words "may," "will," "could," "should," "would," "plans," "expects," "anticipates," "continue," "estimate," "project," "intend," "likely," "forecast," "probable," "potential," and similar expressions. These forward-looking statements involve risks and uncertainties that could cause actual results to differ materially from those projected or anticipated. Such risks and uncertainties include, but are not limited to, continued funding of defense programs, the timing and amounts of such funding, general economic and business conditions, including unforeseen weakness in the Company's markets, effects of epidemics and pandemics such as COVID, effects of any U.S. Federal government shutdown or extended continuing resolution, effects of continued geopolitical unrest and regional conflicts, competition, changes in technology and methods of marketing, delays in completing engineering and manufacturing programs, changes in customer order patterns, changes in product mix, continued success in technological advances and delivering technological innovations, changes in, or in the U.S. Government's interpretation of, federal export control or procurement rules and regulations, changes in, or in the interpretation or enforcement of environmental rules and regulations, market acceptance of the Company's products, shortages in or delays in receiving components, production delays or unanticipated expenses due to performance quality issues with outsourced components, inability to fully realize the expected benefits from acquisitions, restructurings and value creation initiatives such as 1MPACT, or delays in realizing such benefits, challenges in integrating acquired businesses and achieving anticipated synergies, effects of shareholder activism, increases in interest rates, changes to industrial security and cyber-security regulations and requirements, changes in tax rates or tax regulations, changes to interest rate swaps or other cash flow hedging arrangements, changes to generally accepted accounting principles, difficulties in retaining key employees and customers, unanticipated costs under fixed-price service and system integration engagements, and various other factors beyond our control. These risks and uncertainties also include such additional risk factors as are discussed in the Company's filings with the U.S. Securities and Exchange Commission, including its Annual Report on Form 10-K for the fiscal year ended July 2, 2021. The Company cautions readers not to place undue reliance upon any such forward-looking statements, which speak only as of the date made. The Company undertakes no obligation to update any forward-looking statement to reflect events or circumstances after the date on which such statement is made.

DISTRIBUTION STATEMENT A. Approved for public release: distribution is unlimited.
