#### **SPECIAL REQUIREMENTS**

POWER REQUIREMENTS ABOVE 400-AMPS, SPECIAL VOLTAGE AND TRANSFORMERS ARE AVAILABLE - PRICES UPON REQUEST

#### **IMPORTANT CONDITIONS AND REGULATIONS**

- 1. Electrical Services may be ordered via email at prevailing rates or through online ordering. Advance rates are available when orders are processed through our online portal 21 calendars prior to first day of show opening. Onsite rates will be applied to all orders placed during move-in and show dates.
- 2. Notification of cancellations **must be received in writing** a minimum of <u>fourteen (14) calendar days</u> prior to the scheduled show opening date. Credit will not be given for electrical service installed but not used. **A 15%** processing fee will be applied to all order cancellations.
- 3. Payment in full and a scaled diagram indicating the number and location of outlets, including the booth's dimensions and neighboring booth/aisle numbers MUST be included before services are provided.
  Orders without payment will NOT be processed and service will be withheld until payment is received.
- 4. Any complaint or claim must be brought to the Service Desk prior to the close of the Event. The Exhibitor shall maintain such insurance as necessary to protect against loss or damage to any equipment or other property. The Exhibitor agrees to bear the risk of inadequacy or failure of any insurance or any insurer insuring the Exhibitor or the Event Licensee or their respective equipment or other property.
- 5. All equipment and other property furnished by the Georgia World Congress Center Authority under this Electrical Services Order Form shall remain the property of the Authority and may be removed only by house technicians following conclusion of the Event.
- 6. Unless otherwise authorized in writing by the Georgia World Congress Center Authority, <u>only</u> Georgia World Congress Center electricians are authorized to cut floor coverings to permit installation of services.
- 7. All equipment to be connected by Georgia World Congress Center must comply with NEC, federal, state, and local codes, and the directives of the Georgia World Congress Center Authority's Engineering Department.
- 8. Prices are based upon rates at the time of the order and are subject to change without notice.
- 9. Moreover, engineers and technicians employed by or under contract with the Exhibitors or Event Licensees must obtain advance written authorization from the Georgia World Congress Center Authority prior to assembling, diagnosing, wiring or servicing any electrical equipment.
- 10. Exhibitors and Event Licensees are required to ensure that outlets, columns and permanent building outlets are not obstructed at any time.
- 11. All electrical cords and appurtenances must be supplied by the Georgia World Congress Center Engineering Department.
- 12. Rates quoted cover routing of service to the rear of the booth in the most convenient manner. **Special routing,** connection of equipment and all other work will be charged on a time and material basis in addition to service rate.
- 13. All equipment shall be properly tagged and wired by the Exhibitor with complete information as to type of current, voltage, phase, cycle, horsepower, and such other information as the Georgia World Congress Center Engineering Department reasonably may require.
- 14. Electrical power for lights and displays may be turned on daily approximately one hour prior to Event opening time and off at approximately Event closing time. Twenty-four (24) hour power may be requested for services that require continuing electrical service after-hours (e.g., refrigerators, programmable machinery, etc.). Provided, however, the Exhibitor and the Event Licensee both acknowledge that electrical power is generated and delivered by a public utility and, that being the case, the Georgia World Congress Center Authority cannot guarantee that electrical power will be available continuously or without interruption. The Exhibitor and the Event Licensee acknowledge and accept the risk that such electrical power interruptions may occur from time to time.
- 15. Not with standing any of the provision of this order form, in any event neither the Authority nor the Exhibitor shall be liable for any consequential damages, and the Authority's liability shall not exceed the fees paid to and received by the Authority in respect of this order form.
- 16. This Electrical Services Order Form, as executed and approved, shall constitute the entire agreement between the Authority and the Exhibitor, and no change in or modification of this Electrical Services Order Form shall be binding upon the Authority unless the change or modification is in writing, and is consented to and approved by the Authority.

#### COMPRESSED AIR-WATER-DRAIN-NATURAL GAS SERVICE ORDER FORM

#### **IMPORTANT CONDITIONS & REGULATIONS**

- 1. TO QUALIFY FOR DISCOUNTED RATES-Orders with payment must be received 21 calendar days prior to the FIRST DAY SHOW OPENING.
- 2. Notification of cancellations must be received in writing a minimum of fourteen (14) calendar days prior to scheduled show opening date. A 15% processing fee will be applied to all order cancellations.
- 3. PAYMENT IN FULL is due at time services are ordered
- 4. Credit will not be given for plumbing service installed and not used.
- Any complaint or claim must be brought to the Service Desk prior to the end of the event. The
  exhibitor shall maintain insurance as necessary to protect against loss or damage to
  Georgia World Congress Center license agreement.
- All material and equipment furnished by Georgia World Congress Center for this service order shall remain the property of the Congress Center and shall be removed **ONLY** by house technicians at the close of show.
- Unless otherwise directed, Georgia World Congress Center plumbers are authorized to cut floor coverings to permit installation of services.
- 8. All equipment to be connected by Georgia World Congress Center must comply with NEC, federal, state and local codes.
- 9. Prices are based upon current wage rates and are subject to change without notice.
- 10. Under no circumstances shall anyone other than a "house plumber" make plumbing connections. However, company engineers and technicians who are required to assemble, allowed to execute work subject to approval of Georgia World Congress Center Engineering Department.
- 11. Wall outlets, columns and permanent building outlets are **not** to be obstructed at any time.
- Georgia World Congress Center recommends that exhibitors provide a filter-separator for all equipment requiring air connections. Congress Center will not be responsible for moisture or
- 13. If air, water, and natural gas pressure are critical, Georgia World Congress Center recommends that exhibitors arrange to have a pressure regulator valve installed. No guarantee can be made of minimum and maximum pressure.
- 14. All equipment using water must have the inlet and outlet properly tagged.
- 15. The service fee will be based on the combined rated capacity of connected equipment.

## Georgia World Congress Center Authority ANCHORING GUIDELINES

The Georgia World Congress Center is in agreement to install our anchors in certain areas and in small numbers. The Exhibit Hall floors in Buildings A and B are designed for a compressive uniform live load of 350 lbs/sf while Building C is designed for a compressive uniform live load of 400 lbs/sf. Floor anchors are limited to a depth of 5" and have to maintain a clear distance from expansion and control joints a minimum of 18". These joints are located from the centerline of the columns on a 45' grid. In addition, in an effort to maintain the structural integrity of the floor slab, we have to limit the number of anchors installed in a given area preferably to a maximum of one anchor per three sq. ft. We will do our best to facilitate all of our customer needs, however; we also need to protect the integrity of our floor systems for future business. The B/C Exhibit hall is designed for a compressive uniform live load of 400 lbs/sf. Floor anchoring and drilling are prohibited in the B/C hall due to its structural design.

While setting your equipment in your booth, please keep in mind distances from the proposed anchor location in relation to the expansion/control joints. Adjustments may need to be made to the location of the equipment in the booth to facilitate your anchoring needs.

The following link is for a standard anchor that we use: <a href="https://www.itwredhead.com/products/screw-anchors/large-diameter-tapcon-ldt">https://www.itwredhead.com/products/screw-anchors/large-diameter-tapcon-ldt</a>

The cost for this service is \$250 per hole. This price includes the labor to install and remove of the anchor, the anchor itself and patching of the hole. Authorization to drill exhibit hall floors must be secured from the Georgia World Congress Center Director of Engineering or his designee. Please submit a detailed description of the equipment and/or machinery that will be anchored to the exhibit hall floor along with a completed and signed copy of this form to the address below.
