**Exhibition Participation Continues to Grow as the RF & Microwave Industry Gears up for IMS  
440+ Companies and 60 First Time Exhibitors will showcase their latest technology  
advancements in person, 19-24 June in Denver, CO**

**DENVER – May 17, 2022** –The [2022 IEEE MTT-S International Microwave Symposium \(IMS2022\)](#) Exhibition will take place Tuesday, 21 June through Thursday, 23 June at the Colorado Convention Center.

“The entire community recognizes how important in-person events are, and they are excited to reconvene in Denver for IMS2022,” said Carl Sheffres, Group Director, Media and Events, Horizon House Publications. “The show floor will host a strong combination of new companies and long-time industry participants. IMS2022 is the most prominent event in the industry and the exhibitor participation reflects that.”

A complete Exhibitor list can be found [here](#). In addition to exhibiting on the show floor, industry leading companies are supporting the event through sponsorships. This year’s platinum sponsors are Analog Devices and Qorvo. At the gold level we have Rohde & Schwarz and Amplitech Group. Rounding out the metal levels are the silver sponsors which include Anokiwave, Cadence, Eravant, Global Foundries, MACOM, Maury Microwave, MI-WAVE, Wolfspeed and XMA-Omni Spectra.

Co-located with IMS are [IEEE MTT-S Radio Frequency Integrated Circuits Symposium](#) (RFIC) and the [ARFTG Microwave Measurement Conference](#). Events featured include the technical sessions, technical lectures, panel sessions, Connected Future Summit, industry workshops, and MicroApps. To view the full technical program visit: <https://ims-ieee.org/technical-program>

Registration for the in-person event is open and more information can be found [here](#). Advance Registration runs through 15 June 2022 and represents a significant savings compared to on-site pricing.

**About IMS**

The International Microwave Symposium (IMS) is the annual conference and exhibition of the

IEEE Microwave Theory and Techniques Society (MTT-S). IMS features a large trade show with a commercial exhibition featuring 440+ companies and a technical program offering technical sessions, interactive forums, plenary and panel sessions, workshops, technical lectures, application seminars, and a wide variety of other technical and social activities. The program covers the latest microwave and RF advancements in emerging areas such as 5G, automobile radar, wearable electronics, the Internet of Things, wireless HDMI, medical applications, satellite communications, quantum computing and more. IMS2022 will be held 19 – 24 June 2022 in Denver, CO, USA.
