

Pasternack to Exhibit at the 2022 IEEE MTT-S International Microwave Symposium in Denver, CO

Pasternack to Showcase New, Innovative RF and Microwave Products at IMS 2022 at Booth #9014

IRVINE, Calif. - [Pasternack](#), an Infinite Electronics brand and a leading provider of RF, microwave, and millimeter wave products, announced today that they will be exhibiting at this year's IEEE MTT-S International Microwave Symposium (IMS 2022) in Denver, CO. from June 19th to June 24th at the Colorado Convention Center.

Pasternack will be showcasing their new lines of innovative products including [Waveguide Rotary Joints](#), [Waveguide Pressure Windows](#), [Waveguide Frequency Multipliers](#), [Temperature Compensated Amplifiers](#), [Waveguide Failsafe Electromechanical Relay Switches](#), [Low PIM 5G Indoor and Outdoor Antennas](#), [Waveguide Gain Horn Antennas](#), [1.85mm connectors and adapters](#), and [NMD and Low PIM connectors and much more](#).

Pasternack's engineers and product management team will be available in [booth # 9014](#) to answer questions regarding the company's products and services and to discuss what customers require to help them accomplish their RF/Microwave applications.

At the booth, visitors can experience the innovative [Pasternack Cable Creator™](#) which allows customers to quickly design and order over 250,000 possible cable assembly configurations, all from an easy-to-use online interface. This state-of-the-art, web-based tool provides users with instant pricing, detailed datasheets, and online ordering with same day shipping for any cable assembly built from an inventory of 1,300 connectors and 120 cable types.

Booth attendees will also be able to obtain the company's latest product literature covering the industry's largest offerings of in-stock PIN diode & electromechanical switches, amplifiers, antennas, 60 GHz products, mixers, multipliers, dividers, oscillators, synthesizers and waveguide components.

"Exhibiting at IMS has always been an exciting time of year for our company as it allows us to meet face-to-face with customers to learn more about the products and solutions, they are using to address the latest developments in RF and Microwave technologies," said Peter Winkle, VP of Brand Marketing at Pasternack. "IMS is also a great gathering place for us to show attendees the next wave of innovative products we plan to release over the next year."

About Pasternack:

A leader in RF products since 1972, Pasternack is an ISO 9001:2015 certified manufacturer and supplier offering the industry's largest selection of active and passive RF, microwave, and millimeter wave products available for same-day shipping. Pasternack is an Infinite Electronics brand.

About Infinite Electronics:

Based in Irvine, Calif., [Infinite Electronics](#) is a global electronics supplier, offering a broad range of components, assemblies and wired/wireless connectivity solutions, serving the aerospace/defense, industrial, government, consumer electronics, instrumentation, medical and telecommunications markets. Infinite's brands include Pasternack, Fairview Microwave, L-com, MilesTek, ShowMeCables, NavePoint, INC Installs, Integra Optics, PolyPhaser, Transtector, KP Performance Antennas, RadioWaves and Aiconics. Infinite Electronics serves their customer base with deep technical expertise and support, with one of the broadest inventories of products available for immediate shipment, fulfilling unplanned demand for engineers and technical buyers. Infinite Electronics is a Warburg Pincus portfolio company.
