## **ULTRA BROAD BAND COUPLER COVERS 1-67GHz for 5G**

**Devens, MA** - Response Microwave, Inc. a global specialist in providing RF/Microwave customer solutions, is pleased to announce the availability of its new broad band coupler for use in ATE and production 5G applications.

The new RMCO20.1-67.185f covers the 1-67GHz band offering typical electrical performance of 2.8dB max insertion loss, VSWR of 1.80:1 max and minimum directivity of 10dB. Power handling is 16W and the unit is operational over the -55° to +105° C range. Mechanical package is 2.5 x 0.65 x 0.5inches, plus stainless steel 1.85mm female connectors. Alternate coupling values are available on request, as are narrower bandwidths.

For more information on this new line or to discuss how we can satisfy your application specific requirement, please contact Response Microwave, Inc. at (978) 772-3767, [www.responsemicrowave.com](http://www.responsemicrowave.com), or by e-mail at; [info@responsemicrowave.com](mailto:info@responsemicrowave.com) .
