Multiport Mini-SMP for Solderless Mounting

Rosenberger introduces Multiport Mini-SMP cable assemblies and PCB connectors for solderless mounting on PCBs.

The PCB connectors offer superior signal integrity for all kinds of printed circuit boards and can be connected with Mini-SMP – RPC-2.92 cable assemblies for frequencies DC to 40 GHz, or with Mini-SMP – RPC-1.85 cable assemblies for frequencies up to 65 GHz. The system is available with 8 or 16 channels.

The Multiport Mini-SMP system is very cost-effective – designed solderless, easy to assemble by using screws, reusable (high number of mating cycles), low abrasion, damage-free connection and compatible with standard Mini-SMP interface.

Challenging test & measurement applications are semiconductor test equipment testing, system testing or applications where the DUT changes frequently.

About Rosenberger North America

Rosenberger North America is a wholly owned subsidiary of the Rosenberger Group, which was founded more than 25 years ago in Pennsylvania. As an industry leader, Rosenberger provides a wide range of standardized and proprietary connectivity solutions to a variety of customers across multiple industries and market segments.

About Rosenberger

Rosenberger is one of the world's leading manufacturers of impedance-controlled and optical interconnect solutions in high-frequency, high-voltage and fibre-optic technology.

The product range covers RF coaxial connectors, components and accessories, RF measurement products as well as cable assemblies for mobile communication networks, data centres, industrial test & measurement, automotive electronics as well as for high-voltage contact systems, medical and industrial electronics as well as aerospace engineering. The custom machining division manufactures customer-specific precision parts from all machinable materials for various industries such as the automotive and commercial vehicle industry, ship building or classic mechanical and plant engineering.

Worldwide, the Rosenberger Group operates manufacturing and assembly locations as well as Rosenberger sales offices in Europe, Asia and North and South America where – in total – approx. 14,800 employees develop, produce and sell our products. In 2021, the Rosenberger Group achieved global sales of 1.503 billion €. Rosenberger Hochfrequenztechnik GmbH & Co. KG with its headquarters in

Rosenberger

Fridolfing/Germany, where more than 2,900 people are employed today, was founded in 1958 and has been family-owned ever since.
