The Exhibit Hall has two main entrances.

Technical Conference/Meeting Rooms

Technical sessions, tutorials, workshops and additional meetings will take place in Building A Levels 3 and 4.

Registration

Conference/Booth Staff Registration, Registration area on Level 4 (street level) of GWCC.

Space Selection Process

1. First 25 priority number exhibitors will be contacted directly during the summer months to select their booth. Contracts will be sent to all 2020 exhibitors at that time.
2. Remaining priority numbers will be assigned a block time for a Zoom call in July through September. You will be called from the waiting room in priority order. A representative from your company must attend the call to secure your space. If the main and secondary booth contact people are not available,

you must alert event management to the name of the person to call from the waiting room. More details to follow.

3. Review the floorplan (<https://www.expocad.com/host/fx/horizon/21ims/efx.html>) and confirm your booth.

4. Review and sign your contract and email a signed contract to exhibits@horizonhouse.com.

Thank you!
