Rohde & Schwarz debuts interactive measurement playground at IMS 2024 with solutions from the everyday to the extraordinary

Rohde & Schwarz brings an interactive twist this year to IMS 2024: Trade show visitors can explore their test & measurement solutions through live demos, from everyday testing use cases to groundbreaking technology. This interactive approach ensures that visitors gain firsthand insights into the capabilities and features of Rohde & Schwarz products.

Columbia, MD, May 30, 2024 — This year at the International Microwave Symposium (IMS 2024), Rohde & Schwarz invites visitors to explore RF and microwave testing solutions at the Rohde & Schwarz interactive Measurement Playground. Trade show attendees will learn to work with versatile instruments that adapt to customers’ evolving needs.

Rohde & Schwarz is excited to display a range of both new and familiar products on the IMS show floor this year. The updated R&S SMW200A vector signal generator features a sleek design, enhanced performance, and unparalleled flexibility to meet the most demanding EVM requirements.

Additionally, Rohde & Schwarz will be presenting the new R&S SMB100B RF and microwave signal generator, which delivers outstanding spectral purity and impressive output power, reaching up to 40 GHz. This advancement redefines purity and power in the midrange-class.

Experience the future with the highly anticipated R&S SFI100A wideband IF vector signal generator, designed to pave the way for groundbreaking 6G and sub-THz applications. Moreover, discover the capabilities of the R&S ZNA vector network analyzer in action, showcasing its prowess in 6G D-band system and component characterization.

For those tackling real-world testing challenges, the R&S IRAPS™ provides unmatched solutions. Capture, analyze, and playback real-world RF spectrums for efficient and insightful platform verification, ensuring you overcome the complexities of real-world testing.

IMS 2024 attendees can find Rohde & Schwarz in booth #1521 in Washington, D.C., from June 18-20, 2024. Open to all IMS show attendees, Rohde & Schwarz experts will be participating in the IMS 2024 Micro App sessions and workshops from June 18-20.
