FOR IMMEDIATE RELEASE

Crane Aerospace & Electronics Releases EAR99 Modular Wideband Converters and Synthesizers for 2-18 and 18-40 GHz Applications (mmW-IMA)

Crane A&E's strong heritage of Integrated Microwave Assemblies products offer flexible SOSA aligned solutions with exceptional performance for EW, space and various defense applications.

CHANDLER, Ariz. – June 18, 2024 – Crane Aerospace & Electronics, a segment of Crane Company (NYSE:CR), has launched mmW-IMA, a family of microwave assembly products. Crane A&E has a strong heritage of delivering proven high performance microwave solutions for over 65 years.

Crane A&E's mmW-IMA product family supports 2-18 and 18-40 GHz converters and synthesizers with frequency outputs from 0.5 to 22GHz and 29/43.56 GHz. These products are SOSA aligned in 3U VPX chassis while exhibiting superior SWaP performance and are designed to support rapidly growing EW, mmWave, space and other defense applications. The mmW-IMA product line is available as EAR99 to support our international customers' needs and can be modified to suit specific customer requirements.

"Building on our strong heritage, Crane A&E is introducing a new line of EW/mmWave and space products designed to meet the current market's needs and anticipated future demand," said Margaret Szymanowski, Crane A&E Vice President & General Manager, Microwave Solutions. "We've designed this new product line with market leading RF performance and incorporated our proprietary small footprint capability to deliver flexible solutions for various platforms."

Visit Crane A&E's [Microwave](#) web page to learn more about the new mmW-IMA products on our new [Microwave Product Finder](#) page.

About Crane Aerospace & Electronics

Crane Aerospace & Electronics delivers innovative systems, components, and services for commercial aircraft, defense platforms, and space systems which have proven reliability in mission-critical environments. Products and services are organized into six integrated solutions: Electrical Power Solutions, Fluid Management Solutions, Landing Systems, Microwave Solutions, Cabin Systems and Sensing Components & Systems. For more information, visit www.craneae.com, or follow [@CraneAE](#) on X.

About Crane Co.

Crane Company has delivered innovation and technology-led solutions to its customers since its founding in 1855. Today, Crane is a leading manufacturer of highly engineered components for challenging, mission-critical applications focused on the aerospace, defense, space and process flow industry end markets. The Company is comprised of two strategic growth platforms, Aerospace & Electronics and Process Flow Technologies, as well as the Engineered Materials segment. Crane has approximately 7,000 employees in the Americas, Europe, the Middle East, Asia and Australia. For more information, visit www.craneco.com.
